2.6–2.8%

**Predominant Terpenes:**

- Myrcene
- Limonene
- $\beta$ -caryophyllene

A strain with outstanding potency, ease of growth, and delicious flavor, Bubba Dosi has white diamond-like trichomes impacted densely into the silvery-grey purple & green buds. Dense and modern in form, this variety shows off a blend of colors with an old school Kush aesthetic. The aroma is of sweet fruity dough and herbal gas, while the flavor morphs slightly exposing strong tones of brown sugar and earthy Kush. Bubba Dosi is a favorite of young and old smokers alike, with its intense potency and contemporary quality.
